Space for notes:

Money matters

Sliding scale

- Payments negotiated to balance accessibility for clients and useful wages for workers
- Company profits support subsidizing even more neighborhood work
- \$15 per hr per person is our recommended, soft lower limit

Fair West Work

Working on neighborhood vibes

Financial transparency

I share financial info and encourage workers to identify and pursue their goals with efforts that reward with more than just dollars.

Public space beautification

- Block-by-block work for alleys, streets, sidewalks, gutters, coordinated frontyards & other *underloved* spaces

Private property beautification

- Meet with owners & tenants to identify, prioritize and perform outside yard and handyman work

Walking Workshops

- Walk, talk & learn about neighborhood projects & service opportunities based on your interests and experience
